3.Written Expression

(5 points)

Choose one of the two options. Write a short paragraph. Do not exceed the given lines.

1.Explain the main human causes of climate change and give examples.

2. Describe two types of pollution and their effects on humans and ecosystems

Topic 01– 1.5 points Focus: "Human causes of climate change and their effects."

 2.Introduction – 1.5 points Human activities, such as burning fossil fuels and deforestation, are the main causes of climate change.

3.Coherence – 1 point Ideas are clear and logically connected.

4.Examples / Details – 0.5 points Cars and factories → release carbon dioxide. Deforestation → reduces trees that absorb CO_2.

 5.Conclusion / Effect – 0.5 points These actions lead to global warming, extreme weather, and rising sea levels.

Topic 2– 1.5 points Focus: "Two types of pollution and their effects."

2.Introduction – 1.5 points Pollution is a serious problem that harms humans and the environment. **3.Coherence – 1 point** Ideas are clear and linked.

 4.Examples / Details – 0.5 points Air pollution → causes respiratory problems. Water pollution → harms aquatic life and contaminates drinking water.

 5.Conclusion / Effect – 0.5 points Pollution affects both humans and ecosystems.

Total = 5 points

Good Luck
